Cremation Viewing Options

Prices Effective March 1, 2021 and subject to change

Families choosing cremation often have the desire to spend time with their loved one prior to cremation. While this can be done at the home or care facility at the time of death, there are many situations where those options are not possible. Our goal is to provide your family with the time and atmosphere to say an appropriate farewell.

Additionally, we do require positive identification of a person prior to cremation. This can be done by a family member at the location of the death if both funeral director and family member are present at the same time. You may also utilize one of the viewing options below.
