GREEN BURIAL SERVICES

Heritage Life Story Funeral Homes offers several "green" burial options and is one of a select group of funeral providers approved by the Green Burial Council, a nonprofit organization that encourages the use of burial as a means of facilitating restoration, acquisition and stewardship of natural areas.

WHAT IS GREEN BURIAL?

The basic definition of a natural or green burial is one that uses only biodegradable materials. A natural burial utilizes simple, sustainable materials such as pine or wicker caskets so that nature may take its course following the natural rhythms of life. In a green cemetery, burial vaults and embalming are not allowed. The body can be buried with or without a casket, or just in a burial shroud.
